

The Funny Thing About It

Verse 1

Standing here before you
With all the joy and pain
Might seem quite confusing
But it's all right as rain

16 great-great-grandparents
Standing proud and tall
Funny thing about it is
I can't name one at all

Chorus 1

We come and go
Live our lives
Sometimes push and shove
The funny thing
About it is
All We Leave Is Love

The Funny Thing About It

Verse 2

Passing through, making waves

Living here and now

Sometimes feels confusing

But it all makes sense some how

Life is full of twists and turns

Causing many breaks

Falling down so many times

Angels get head aches

Chorus 2

We come and go

Live our lives

Sometimes push...push and shove

But the funny thing

About it is

All We Leave Is Love

The Funny Thing About It

Bridge

La la la

La la la

La la la

La la la

La la la

La la la

All We Leave Is Love

The Funny Thing About It

Verse 3

When we're great-great-grandparents

Names no one recalls

Bright or dim our memories

Just wandering the halls

What we do is up to us

Living every Now

Here and Now is all there is

It all works out somehow

The Funny Thing About It

Chorus 3

We live our lives the best we can

Then view'em from above

But the funny thing

About it is

All We Leave Is Love

The funny thing about it

Even when I doubt it

All we leave

All we leave

All We Leave Is Love
